Dear Doctor Sagan:

I have read with interest the "Proposed Biology Training Program for Apollo Astronauts" prepared by you and Doctors Morowitz, Young and Vishniac.

It clearly represents a most thoughtful and insightful approach to this interesting challenge. I should like to express my gratitude for your efforts in behalf of our crew training program. Your document will certainly serve as the basic reference for our curriculum planning.

Doctor Orr E. Reynolds has indicated your willingness to serve as an active participant in this program. Be assured that you will hear from me in the next several months concerning how this program can best be implemented.

Thank you again for your interest and efforts concerning our program.

Sincerely yours,

Charles A. Berry M.D.
